

Job 547202 • Latest saved class breakdown (step 2500, 4800 images)

q is near 1% across classes; p is uneven

All 100 class-average gaps are positive

Each class mean uses its saved sample count. q is scored before its update on those images. These are numeric diagnostics of generated images; the images themselves were not saved. Last 499 training steps are absent from this class dump.
